

OVERVIEW

DSRAZOR provides unique flexible management capabilities for Novell's eDirectory and Windows/Active Directory environments. Searching, queries, reporting and maintenance facilities are provided to manage security assessment, users, files/folder, Groupwise/Exchange. Automation capabilities, help-desk functions and a designer to customise applets helps save many hours of routine network administration.

KEY FEATURES

- ✓ Achieve compliance with audit requirements
- ✓ Security reporting
- ✓ Mass user management import, maintenance and clean-up
- ✓ Zero-privilege helpdesk for delegated system administration tasks
- ✓ 100+ applets ready to run
- ✓ Customisation of reports/applets via drag and drop designer
- ✓ ZENworks maintenance
- ✓ Examine servers/disks

Datasheet

DSRAZOR

Directory Services: Assessment - Management - Productivity

WHO NEEDS DSRAZOR?

Any organisation that needs to be responsible and accountable for:

Migration The need for documentation tools that can identify security settings, server names, volume/disk space in use.

Reporting Creating group/user list, running comprehensive reports without spending too much time setting up the reports themselves.

Delegation of Tasks Delegating helpdesk tasks without issuing extensive rights and privileges.

User management Changing user attributes, cleaning the database/tree, issuing rights, determining administrator rights at the root of the tree.

DSRAZOR FOR NETWARE FEATURES

- ✓ Access & correct NDS security weaknesses (e.g. disabled accounts, not requiring password, intruder detection not set)
- ✓ Document file system access privileges for all users, groups, containers
- ✓ Identify and clean up old NDS accounts & home directories with "Smart Delete"
- ✓ ZERO-privilege administration: delegate administration functions to non-administration users - ideal for helpdesks
- ✓ Easy mass user management: disk quotas, password changes, account creations
- ✓ File usage audit reports: files not accessed for X days
- ✓ ZEN and NAL object & association reporting
- ✓ GroupWise documentation and distribution list management
- ✓ 100+ "ready to run" applets with customisation/development capability
- ✓ Simple, easy to use replacement for NWADMIN and/or ConsoleOne
