

## OVERVIEW

- Do you use Pcounter accounts for quotas, limits or charging?
- Do you need to manage user accounts on a routine basis?
- Would you like to enable safe, secure account management to non-IT staff?
- Do you need to generate receipts for your users who pay for printing?

Altman Technologies provides a web-based administration module allowing Pcounter user accounts to be managed using a web browser by non IT staff without administrator rights being required.

Pcounter Web Cashier (PWC) is installed on the same server where Pcounter software is running. From a web browser, any user who has been given PWC operator rights (login and password) is able to manage Pcounter user accounts, print receipts and view detailed history of all transactions without having to have Pcounter installed on their workstation.

PWC can perform all Pcounter Administrator user account operations, with added new features like transaction history, transaction export capabilities and printing of customised receipts.

## Datasheet

# Pcounter Web Cashier

Browser-based Pcounter administration for non-IT staff

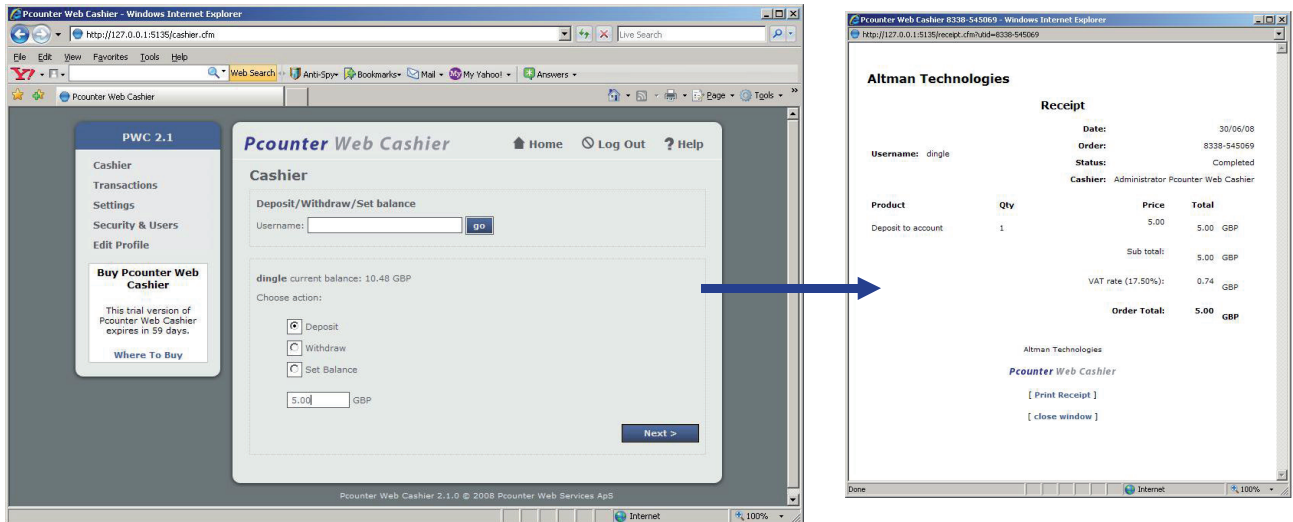

## KEY FEATURES

- ✓ Browser-based Pcounter account management – deposit, charge, set balances
- ✓ Users can be defined with varying rights of access
- ✓ Option to print customised receipt
- ✓ Option to view and manage print transaction history - search, report, export
- ✓ Create and manage user accounts
- ✓ Multiple language and multiple currency capability
- ✓ Quick and easy to install, setup and implement

## KEY BENEFITS

- ✓ Centralised, configurable, browser-based management of Pcounter user accounts
- ✓ Increased IT staff productivity – safe delegation of account management to non-IT staff
- ✓ Supports VAT accounting if required
- ✓ No individual client workstation software necessary, only a web browser

## EXAMPLE OF CUSTOMISED RECEIPT OPTION

## TECHNICAL SPECIFICATIONS

- A web browser is required for all staff required to operate PWC
- A PWC administrator creates PWC cashier operator accounts, so staff can't modify the PWC setup and configuration, only access to cashier operations, deposit or withdrawal, view transactions, print receipts etc.
- Runs on: Windows 2000 and above
- New in Pcounter Web Cashier 2.0: full support for Pcounter for NetWare (requires Pcounter Pro on NetWare)
- Enables simple creation of Popup users
- Simple automated installation

## EVALUATION PROCESS

Free 60 day evaluation available to download from [www.altman.co.uk](http://www.altman.co.uk). Live demonstrations or webinar overviews can be arranged. For more information please contact our solutions team on 0113 273 0300 or email [solutions@altman.co.uk](mailto:solutions@altman.co.uk).
