

OVERVIEW

Pcounter XAuditron provides integration between Xerox multi-function devices that use network accounting or EIP and Pcounter. Secure authentication options are supported with resulting accounting data for print, copy, fax and scan activity captured and centrally logged within Pcounter for centralised, enterprise level reporting and analysis.

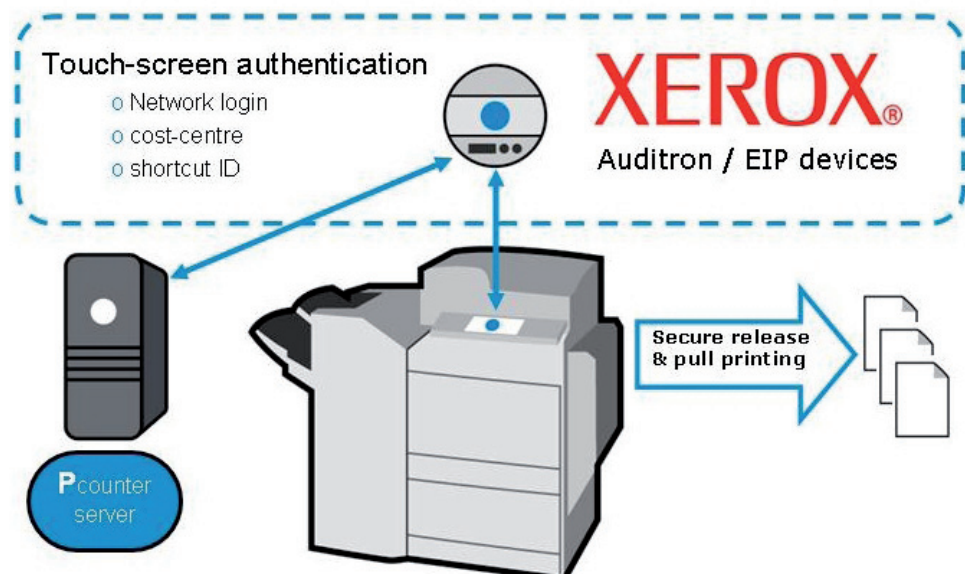

KEY FEATURES

- ✓ Collects accounting data from Xerox Multi-Function machines with Network Accounting software enabled
- ✓ Merges print, copy, fax and scan activity into the standard Pcounter data reporting structure
- ✓ Authentication options to control user access to Xerox machines
- ✓ Includes print job release and client code entry via EIP custom applications
- ✓ Support for Microsoft Windows and Novell NetWare environments

Datasheet

Pcounter XAuditron

Embedded Print & Copy Management Software

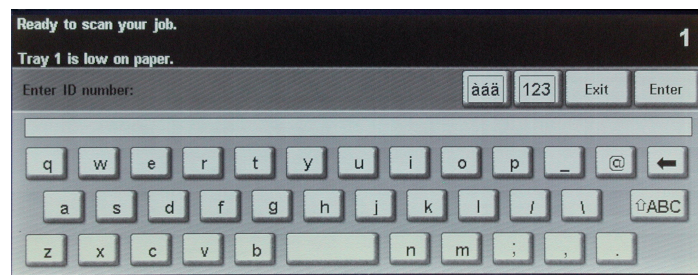

AUTHENTICATION OPTIONS

On-Box Validation Local user ID or account ID authentication using Network Accounting/JBA (non EIP)

Off-Box Validation Network login authentication supported on EIP devices and some non-EIP devices

Xerox Secure Access Server Network login authentication for EIP devices with real-time accounting

KEY BENEFITS

- ✓ Centralised, enterprise reporting of all print, copy, fax and scan transactions
- ✓ Single accounting point for cost control enforcement
- ✓ Centralised management and maintenance of cost-centre/client-codes
- ✓ Secure authenticated access to print and copy resources

TECHNICAL SPECIFICATIONS

Software requirements on the server

- Pcounter for Windows or Pcounter for NetWare installed and running (NetWare/OES support requires Novell Client 32)
- Pcounter XAuditron on the Pcounter data server
- EIP application and network authentication support requires Microsoft IIS web services, with an SSL certificate installed.

Requirements on the Xerox machine

- Network Accounting software enabled (Job Based Accounting/JBA)
- EIP enabled for enhanced login and custom applications
- An SSL certificate to install EIP applications
- SNMP v2c for general configuration capability
- SNMP v3 is required on WorkCentre 72xx/73xx models
