

OVERVIEW

Our Floor mounted touch screen kiosk is available to enable automated, self-service purchase of print credit. Users enter their network login details or use an ID card to authenticate to the device and deposit cash which is added to their Pcounter print credit balance on the network, in real-time.

KEY FEATURES

- Self-service, real-time cash purchase of print credits for Pcounter
- Large touch screen interface
- Coin and note acceptors (foreign currency supported)
- Supports chip and PIN credit card payments
- Receipt printer – customisable output
- ID card authentication support
- Self-service association of ID cards to login ID
- Financial accounting and cash analysis reporting
- DDA compliant
- Customised branding options available
- Ability to monitor levels of notes and coins

Datasheet

Touch Screen Kiosk

Self service deposit station for Pcounter

KEY BENEFITS

- Robust, secure, automated cash collection
- Reduction in manual cash handling
- Reduced staff costs
- Increased quality of service - 24/7 availability
- Consistent, accurate application of credit
- Centralised audit trail, accounting, reconciliation and reporting
- Compliance with DDA legislation

CARD INTEGRATION

The touch screen kiosk card readers give the user authentication method against their Pcounter/Active Directory account. Full card integration is supported with all card technologies. By default the terminal operates with Pcounter account/network login.

Upgrade options available are:

ISO Mag stripe cards (track 1, 2, or 3)
Mifare Classic 1k and 4K cards
HID - iClass, HID - Prox
Many other card options are available
