

OVERVIEW

XPR Reports provides enhanced reporting and analysis. Pcounter's logged data is imported into its own database for selective analysis and reporting of print and copy transactions and cash reconciliation for deposit transactions via value loaders, allowing non-IT staff to run reports. Both detailed and summary level reports are available, broken down by user, department/cost centre, printer, copier terminal or value loader.

KEY FEATURES

- ✓ Crystal reporting format
- ✓ Summary and detailed analysis of Pcounter logged transactions
- ✓ Copy and print, mono, colour, by user/printer/terminal/loader/cost-centre
- ✓ Variety of filter and output options
- ✓ Custom report writing available
- ✓ Standard report templates can be faxed
- ✓ Reports can be customised with end user branding

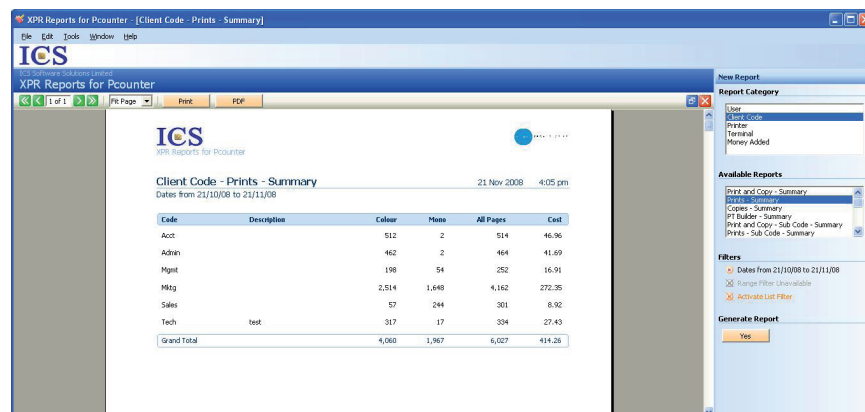

KEY BENEFITS

- ✓ Enhanced management information
- ✓ Enterprise wide centralised reporting
- ✓ Self-service report generation for non IT staff
- ✓ Manageable report length using filters

Datasheet

XPR Reporting Suite for Pcounter

Enhanced Reporting & Analysis

The screenshot shows a software window titled 'XPR Reports for Pcounter - [Client Code - Prints - Summary]'. The main content area displays a table with the following data:

Code	Description	Colour	Mono	All Pages	Cost
Acct		512	2	514	46.96
Admin		462	2	464	41.69
Mgmt		198	54	252	16.91
Mktg		2,514	1,640	4,162	272.35
Sales		57	244	301	8.92
Tech	test	317	17	334	27.43
Grand Total		4,060	1,967	6,027	414.25

On the right side of the interface, there is a 'New Report' panel with a 'Report Category' dropdown menu (showing 'Prints') and an 'Available Reports' list. Below that, there are 'Filters' and a 'Generate Report' button.
