

OVERVIEW

XPR SecurePrint is a safe and secure way to control print queues. Its 'simple-to-use' technology ensures documents sent to the printer cannot be read, go astray or get mixed up with other print jobs. It is quick and easy to use. All printed jobs are held in a 'queue' until the release to print is authorised by either the sender's swipe-card, ID badge or biometric signature

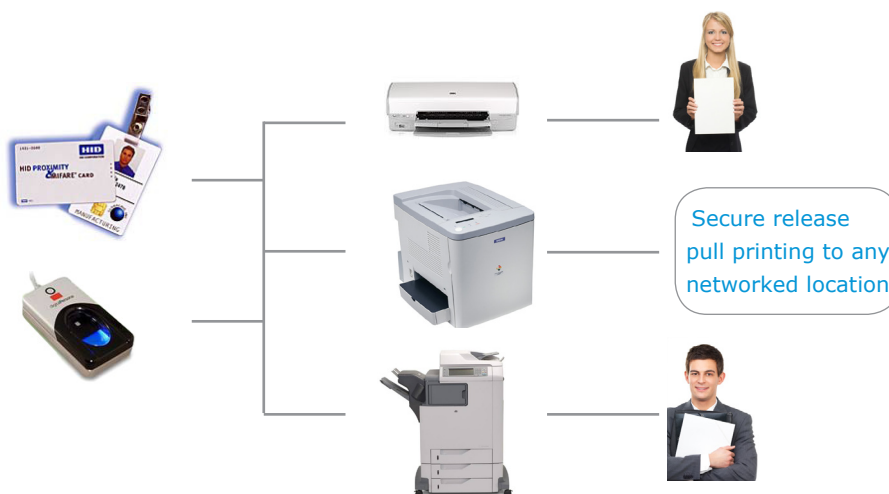

KEY FEATURES

- ✓ Secure print release
- ✓ Pull printing supported
- ✓ Compatible with all local and network printing devices
- ✓ All major card types and biometric fingerprint scanner supported
- ✓ Network attached card readers

Datasheet XPR SecurePrint

Secure & Quick Print Release

User authentication using existing ID cards or biometric scanning

TECHNICAL SPECIFICATIONS

- Windows (newer than 9x)
- Microsoft Net 3.5 framework
- If a firewall is used on the sever, it will need be opened for traffic to the Ethernet based client card readers

XPR Enterprise SecurePrint must be installed on the same computer that hosts the Pcounter data server service.

The XPR Enterprise Secure Print requires Pcounter PRO 2.52 for Windows, or newer.

Minimum computer specifications for XPR Enterprise SecurePrint: MS Windows XP Pro, Windows 2000 (Pro or Server), Windows 2003 or later. 25 MB disk space. A CPU fast enough and sufficient RAM to run the OS efficiently.

- 10/100Mb/s Auto sensing RJ45 ethernet port
- 6 page web server for static html
- 234b/s maximum serial throughput
- Moulded 9-way D-type serial cable
- Power status & serial activity LEDS
- AES packet encryption
- Supplied with mains power supply
- Power pass through to/from serial reader
- Power consumption 240mA @ 7.5V, 75mA @ 24VDC
- Configurable security options
- All RF card technologies are compatible
- 13.56Mhz (Mifare, HID iClass, etc), also 125 KHz Technology (HID Prox, Legic) +More

KEY BENEFITS

- ✓ Guarantees security and confidentiality of output
- ✓ Increases productivity – no need to queue by printer
- ✓ Promotes flexible working practice – ‘pull’ print jobs to any device
- ✓ Quick and easy to deploy
- ✓ Low cost
- ✓ Small energy footprint – environmentally friendly
- ✓ Future-proof - works with all printers

CARD SPECIFICATION

XPR SecurePrint is compatible with the following card technology:

- Mifare
- HID Proximity
- Hitag
- Magstripe
- Legic
- HID iClass

EVALUATION PROCESS

Live demonstration or webinar overviews can be arranged. For more information please contact our solutions team on 0113 273 0300 or email solutions@altman.co.uk.
