

## OVERVIEW

Since formation in 1988, Altman Technologies has provided leading-edge technologies backed up by excellent, responsive service and support. The solutions are robust and highly scalable, delivering significant cost savings through automation of processes, increased productivity and enhanced management control.

Altman Technologies is the exclusive distributor for a number of specialist technology companies and has developed channel partnerships within the software, printing and associated industry sectors.

Areas of specialisation include print & copy management, email & web protection, auditing & security and directory services management. Onsite services are available which include bespoke training, installation, configuration and consultancy services. Scheduled training courses are also held on a regular basis.

## CUSTOMER BASE

Altman Technologies has built an extensive customer base across a variety of industries spanning the corporate, education, financial, government and commercial sectors. In the education sector, Altman Technologies' solutions are used in over 60% of colleges and universities and hundreds of schools. Testimonials and case studies are available on our website.

# Company Profile

## PRINT & COPY MANAGEMENT

Accounting - Control - Security

Enterprise level auditing, accounting, cost control, cost recovery and reporting for all print & copy output, introducing accountability, control and dramatic cost savings through the elimination of waste and misuse.

## EMAIL & WEB SECURITY

Filtering - Management - Compliance

Precision filtering, protection, auditing, archiving, reporting and control for an organisation's email & web traffic through a hosted, managed service that delivers enhanced security, legislative compliance and vast savings in staff time.

## NETWORK SECURITY MANAGEMENT

Monitoring - Alerting - Reporting - Assessment - Management - Productivity

Real-time, 24/7 event monitoring, filtering, alerting and forensic reporting of user generated activity across Microsoft and Novell network environments. Seamless administration, maintenance, query and reporting capability for Active Directory and eDirectory environments as well as Windows and NetWare file systems.

## HOSTED VOICE

Control - Flexibility - Smart - Simple

A host of cost effective, vital telecommunications services designed to make life easier for users. From efficient call recording, message archiving, call routing and business continuity in a crisis, we offer solutions for every business need from the small 'one man' start-up to large multi-nationals.
