

The new generation of Pcounter applications

Increased flexibility & productivity

ALTMAN TECHNOLOGIES

**Pcounter**
one solution

SQL support + Custom Data Integration

A new SQL connector is now available as part of our Custom Data Kit – enabling seamless integration of print and copy transactions with other databases and applications as needed.

Datasheet: <http://www.altman.co.uk/pdfs/PcounterCDKDatasheet.pdf>

ePayments

Customisable web portal for credit and debit card payments - now with the ability to connect to multiple purses online and also pay-per-print in hospitality or library areas.

Datasheet: <http://www.altman.co.uk/pdfs/PcounterWebPay.pdf>

Mobile printing

Enables users to access printers from their own laptops, mobiles/Blackberrys without needing print drivers authentication or client software – supports all accounting, print release & payment methods.

Datasheet: <http://www.altman.co.uk/pdfs/PrinterOnDatasheet.pdf>

Secure printing: Print-2-me

Simple, quick and convenient print release system - just swipe and release capability for any network print device - avoiding need for external terminals, embedded device software or release stations.

Datasheet: <http://www.altman.co.uk/pdfs/Print-2-Me.pdf>

Graphical Reporting

Browser-based, graphical, scheduled reporting with device alerts and analysis of carbon footprint data.

Datasheet: <http://www.altman.co.uk/pdfs/PcounterWebReportDatasheet.pdf>

Print room - reprographics management – job ticketing

High volume output or jobs requiring special finishing can be automatically re-directed to the print room from Pcounter or submitted by users via a web portal, the user able to track progress to completion.

Datasheet: <http://www.altman.co.uk/pdfs/PrineoChameleon.pdf>

COMING SOON **NEW** - A native version for the Linux / OES platform
