

OVERVIEW

Print-2-Me enables ID card integration with Pcounter for secure print release and pull printing capability with any network printing device. Print jobs are paused and held on the network print queue, requiring users to authenticate themselves with an ID card to release their queued print jobs whilst at the printer.

KEY FEATURES

- ✓ Secure print release
- ✓ Pull printing supported
- ✓ Compatible with all network printing devices
- ✓ All major card types supported
- ✓ Network attached card readers

Datasheet

Print-2-Me

Secure Pull Printing

User authentication using existing ID cards

KEY BENEFITS

- ✓ Guarantees security and confidentiality of output
- ✓ Increases productivity – no need to queue by printer
- ✓ Promotes flexible working practice – ‘pull’ print jobs to any device
- ✓ Quick and easy to deploy
- ✓ Low cost
- ✓ Small energy footprint – environmentally friendly
- ✓ Future-proof - works with all printers

TECHNICAL SPECIFICATIONS

Electrical

- Externally powered via small network device to ensure TCP/IP connection
- 5 VDC
- Chassis ground connected to GND and magnetic head case where applicable
- Operating current: up to 70mA
- Indicators: Tri-colored LED

Environmental

- Operating Temperature: 0°C to 55°C
- Storage Temperature: -30°C to 70°C
- Humidity: Maximum 95% non-condensing

CARD SPECIFICATION

Print-2-Me is compatible with the following card technology:

- Mifare
- HID Proximity
- Hitag
- Magstripe
- Legic
- HID iClass

EVALUATION PROCESS

Live demonstration or webinar overviews can be arranged. For more information please contact our solutions team on 0113 273 0300 or email solutions@altman.co.uk.
